In Montana

The Cooke City Newsletter is published once each week. The deadline for advertisements is each Wednesday. Businesses can advertise for four issues at a rate of \$15 per month with a 40 word limit per advertisement. Individual ads are \$5 for the first 40 words and \$.10 for each additional word on a weekly basis. Ads can be e-mailed to info@cookecitychamber.org or mailed to Chamber, P.O. Box 1071 Cooke City, MT 59020. If you have questions please call 838-2495 and leave a message. We reserve the right to refuse any ad and also the right to edit for length, grammar and good taste. You can access the newsletter year round on the chamber website at www.cookecitychamber.org.

Issue no. 497

Riddles.com – Cover the answers first!
Written by Jim Taylor

Riddle: If three cats catch three mice in three minutes, how many cats would be needed to catch 100 mice in 100 minutes?

Answer: The same three cats would do. Since these three cats are averaging one mouse per minute, given 100 minutes, the cats could catch 100 mice.

Riddle: Four men were in a boat on the lake. The boat turns over, and all four men sink to the bottom of the lake, yet not a single man got wet! Why?

Answer: Because they were all married and not single.

Riddle: How many times can you subtract the number 5 from 25?

Answer: Only one time. After that, you would be subtracting from 20.

Written by Mary

Polly Perkins was after a talking parrot, so she went to the local pet shop in the hope of securing such a find. She was in luck. The shop assistant assured her that the parrot would learn and repeat any word or phrase it heard. Polly was delighted. However, a week later, the parrot still hadn't spoken a word. Polly returned to the shop to complain, however, it appeared that the assistant was accurate in what he had said, and refused a refund. Why didn't the parrot talk?

Answer: The parrot was deaf and as such couldn't repeat a single word it had heard!

Written by Rachael

What year comes next in this sequence: 1973 1979 1987 1993 1997 1999

Answer: 2003: they are prime years.

Riddle: You are in a room where there are no metal objects except for two iron rods. Only one of them is a magnet. How can you identify this magnet?

Answer: You can hang the iron rods on a string and watch which one turns to the north (or hang just one rod).
